

Intellect Named Fast Company's World's Most Innovative Companies 2025

SINGAPORE, 19 MARCH 2025 – Intellect is proud to have been named to Fast Company's prestigious list of the World's Most Innovative Companies of 2025. This year's list shines a spotlight on businesses that are shaping industry and culture through their innovations to set new standards and achieve remarkable milestones in all sectors of the economy.

"Being recognised by Fast Company as one of the World's Most Innovative Companies is a testament to our commitment to breaking barriers in mental health through technology and research-backed care," said Intellect's CEO and Co-Founder, Theodoric Chew. "As we continue expanding globally, we remain focused on pioneering solutions that empower individuals and organisations to thrive."

In the past 12 months, Intellect has expanded its global mental healthcare ecosystem, now offering services in 120 languages across 100+ countries. This unprecedented scale ensures that individuals, no matter where they are, can access clinically validated mental health support in their preferred language and cultural context. With a truly global, yet deeply localised approach, Intellect has set a new benchmark for accessible, high-quality mental healthcare.

To uphold the highest clinical standards, Intellect collaborates with leading mental health professionals, research institutions, and regulatory bodies worldwide. This commitment to rigorous, science-backed care has enabled Intellect to deliver gold-standard mental healthcare at a global scale, ensuring that quality and effectiveness remain at the heart of every interaction.

The World's Most Innovative Companies stands as Fast Company's hallmark franchise and one of its most anticipated editorial efforts of the year. To determine honourees, Fast Company's editors and writers review companies driving progress around the world and across industries, evaluating thousands of submissions through a competitive application process. The result is a globe-spanning guide to innovation today, from early-stage startups to some of the most valuable companies in the world.

"Our list of the Most Innovative Companies offer both a comprehensive look at innovation today and a playbook for the future," said Fast Company editor-in-chief Brendan Vaughan. "This year, we recognise companies that are harnessing AI in deep and meaningful ways, brands that are turning customers into superfans by overdelivering for them, and challengers that are introducing bold ideas and vital competition to their industries. At a time where the world is rapidly shifting, these companies are charting the way forward."

The full list of Fast Company's Most Innovative Companies honorees can now be found at [fastcompany.com](https://www.fastcompany.com). It will also be available on newsstands beginning 25 March 2025.

About Intellect

The leading mental health company, Intellect's mission is to redefine mental healthcare regionally and globally. From everyday support to clinical interventions, Intellect grounds its full continuum of care in research, ensuring everyone has easy access to preventive, responsive and personalised mental health care in the moments that matter.

As the most trusted mental healthcare provider in the region, Intellect serves some of the biggest enterprises and organisations in healthcare, government, and education. Online and offline, it has made a difference in the lives of over 4 million users.

Intellect is backed by influential investors including Tiger Global, Insignia Ventures Partners, Y Combinator, HOF Capital, MS&AD Ventures, and East Ventures, alongside prominent venture funds, family offices, big tech executives, and angel investors. In 2023, Intellect was also awarded Human Resources Online's Best Digital Wellness Platform (Gold).
